ROYAL DECREE ON THE ENVIRONMENTAL PROGRAM

Instruction to the Cabinet of Ministers on the development of measures to improve the environmental situation in the world

Given the growing global challenges associated with climate change, biodiversity loss and depletion of natural resources, and striving to preserve nature for future generations, I, Queen of the Northern Barchant Anna Macco, is issuing this Royal Decree to direct the Cabinet of Ministers to develop measures to improve the ecological state of the world.

- 1. I instruct the Cabinet of Ministers of Northern Barkhant to develop a set of measures aimed at reducing environmental pollution, protecting and restoring the ecosystem of our planet**
- 2. I instruct the Cabinet of Ministers to develop an action plan to improve the ecological situation in the world. The plan should include specific goals, timelines and mechanisms for implementing the measures.**
- 3. I oblige the Cabinet of Ministers to cooperate with international organizations, governments of other countries and experts in the field of ecology to exchange knowledge and experience, as well as to develop joint measures to solve environmental problems.**

I am confident that the successful implementation of these actions will contribute not only to improving the ecological state of the world, but also to creating a sustainable and prosperous society, as well as ensuring the well-being of all inhabitants of the planet. I oblige the Cabinet of Ministers to the responsible implementation of this decree. I rely on your competence and determination to achieve your goals. Let's make our world cleaner, healthier and more sustainable for future generations.

06/01/2023

Signed,

Her Majesty The Queen
Anna Macco
